ABOUT ME

I am a Bsc IT student currently in my 6th semester with a strong passion for full-stack web development. I have hands-on experience with Python and Django for backend development, and a solid understanding of HTML, CSS, JavaScript, and frameworks like Bootstrap for front-end design. I enjoy building complete web applications that are responsive, user-friendly, and functional. I am eager to gain practical experience, enhance my skills in real-world projects, and contribute to meaningful web development initiatives.
